

Academic Camp at Lake Louisa State Park

Math Competition Students at Technology Campus had an amazing academic fun camp at Lake Louisa State Park. Students did a lot of fun and challenging activities such as Hiking, Canoeing, Sports Playing video Games, and enjoying camp fire as additional to taking a PSAT practice test on which some student got over 1300 out of 1520 as 6th graders and it has put students in a nourishing environment for self-growth academically and socially.
