

## Ms. Hurley's Macy's Thanksgiving Day Balloon Parade

Ms. Hurley's class enjoyed learning about Tony Sarg, the inventor that created the gigantic balloons we all love to watch float by during the Macy's Thanksgiving Day Parade. Not only did students learn about him and his balloons, they created their own! Students looked at clips of old parades, drew sketches of their balloon creations and then brought their ideas to reality. We had fun putting our balloons on parade for Mrs. Cybulski and Ms. Dinuzzo's classes.
