

Orlando Science teachers presented at the Florida Association for Science Teachers (FAST) conference in Orlando. These teachers shared ideas that showed the use of STEM at our school. Ms. Chardavoyne and Ms. Hurley presented Stem Days, which are special days where students complete several challenges. Ms. Haines taught her attendees about Appliance Science, using appliances such as a crockpot to show different aspects of science. Ms. Knight showed different ways to use common items to do STEM in your classroom. We shared ideas and also learned new ones.
