

Reading Buddies

Ms. Swank's class had our first meeting with our 4th grade reading buddies from Ms. Anderson's class. The students read together from books they each chose, and then chose a book together to read. It was really great to see how the older and younger students bonded and formed friendships! We are looking forward to meeting with them again soon!

Thanksgiving Table

Ms. Swank's class took on a Thanksgiving STEM challenge! The students were posed with a problem - Ms. Swank needs a new Thanksgiving table! The students were asked to design one using only printer paper and tape. The catch was, it had to be able to support the weight of chapter books - as many chapter books as possible! The strongest design held 20 chapter books! The students had a great time with this activity and even challenged themselves to come up with multiple different designs!
