

SECME Competition

Our 4th and 5th grade students have spent the past couple months working on a project in the coding program Scratch. The project was for the SECME Competition at UCF that was held this past Saturday. Orlando Science would like to Congratulate Toby Chubb for placing third in the storytelling category for coding!!!! These projects were a lot of work and the students did them completely on their own. Orlando Science would also like to recognize the following students whose projects were demonstrated at the SECME competition : Shirya Roman, Zeynep Cetin and Aarti Abhilash.
