

## OSES COMPETITION MATH TEAM

Our team did amazing. There were 39 teams that participated from 14 different schools. For 3<sup>rd</sup> grade, Arnav received the highest individual score. For 4<sup>th</sup> grade Michelle and Meghana were tied for the highest score and for 5<sup>th</sup> grade Harvik received the highest score. It was later announced that not only did Meghana and Michelle have the highest score for 4<sup>th</sup> grade; they had the highest score for all participants across all three grades! We also won ribbons for individual team events such as problem solving, team relay, and the estimation activity. It was amazing to see how well our students did!
