

OSS/OSES Spring Music Program

We held our annual OSS/OSES Spring Music Program on Wednesday, May 11th. This annual event combines groups from both Orlando Science Elementary as well as Orlando Science Middle-High Schools to put on one large musical event to help wrap-up the school year.

Acts included the K-2 Young Singers, which performed favorites from some of today's popular performers like Katy Perry and One Direction. The Hip Hop club performed songs and step routines using popular Hip Hop and R&B classics. The American Sign Language Club performed a rendition of Cyndi Lauper's True Colors completely without vocals. The Elementary Chorus performed a mix of old and new pieces which featured several soloists. The Elementary Band played several classical pieces, including John Williams's Star Wars. Finally, the Middle-High School Band played several pieces, with the highlights being medleys based from the movies Jurassic Park and The Dark Knight. Overall, it was received as a resounding success and a fine example of these students' accomplishments.
