

Full Time Gifted Instruction

Gifted educational programming includes comprehensive services based upon FLDOE statues, OCPS policy, and philosophical/theoretical/empirical foundations. The program is guided by OSS's mission statement and the expectation to challenge gifted learners. Therefore, the education of gifted learners is a shared responsibility between general education and gifted personnel at all levels. Instructional adaptations for gifted learners are guided by district gifted program standards and school resources. The gifted program at OSes provides a K-5 continuum of services to gifted learners and provides them with opportunities to learn with and from intellectual peers.
